

TrackIt™ AND I>See CAB GUIDE

FiveCubits®
a Command Alkon company

WARNING: Please do not key information into or make selections on the TrackIt™ device while the vehicle is in motion, as doing so could increase the risk of accident.

LOGIN to TrackIt

The screenshot shows the TrackIt login interface. At the top, the status bar displays icons for location, signal, and battery, along with the time 3:53 PM and 100% battery. The TrackIt logo is centered, with the text 'Harper Ready Mix' and 'Please log in' below it. A settings gear icon is in the top right corner. The login form consists of two text input fields and a button. The first field is labeled 'EMPLOYEE NUMBER' and contains the value '124'. The second field is labeled 'VEHICLE NUMBER' and also contains '124'. Below these fields is a blue button labeled 'LOGIN'. A yellow circle with the number '1' points to the first input field, a yellow circle with '2' points to the second, and a yellow circle with '3' points to the login button. At the bottom right, a black box with a white warning triangle icon contains the text 'Other compliance' in red, followed by 'Paper logs may be required as back up' in white.

FiveCubits®
a Command Alkon company

- 1 Select your status by choosing one of the options.
- 2 Driver is controlling the vehicle.
- 3 Non-driver as a second occupant/passenger.
- 4 Period of rest in the sleeper berth.
- 5 Moving vehicle in your carrier's yard.
- 6 Off duty operating the vehicle for personal use.

STATUS

ADD/REMOVE Shipments & Trailers

The screenshot shows the 'Manage Shipments' screen. At the top, there's a status bar with a signal icon, a battery icon, and the time '06/30/17 12:16 pm CDT'. Below this is a header 'Manage Shipments'. The main area is divided into two panels. The left panel, labeled '1 Current Shipments', shows a list with one item 'ABC' and a '2 Remove' button at the bottom. The right panel, labeled '3 Add Shipments', has a 'Shipment ID' label, a text input field with the placeholder 'Enter Shipment ID', and an '4 + Add' button at the bottom. At the very bottom of the screen are two buttons: a red 'Cancel' button with a white 'X' icon and a blue 'Next' button with a white right-pointing arrow icon.

Copyright © 2017 Command Alkon Incorporated. All rights reserved.

The screenshot shows a dialog box titled '5 Current Trailers'. It contains the text 'Would you like to keep the following trailers?' followed by the number '123'. At the bottom, there are two buttons: 'No' and 'Yes'.

- 1 Shipments recorded from the last driver.
- 2 Removes the highlighted shipment.
- 3 Enter Shipment ID of shipment to add.
- 4 Press Add to add Shipment ID.
- 5 If trailers from the previous driver exist, you'll be prompted to keep them

COMPLETE a DVIR

The screenshot shows the FiveCubits DVIR application interface. At the top, a status bar displays a vehicle ID (3100b835a7e5...), a number (123), and a timestamp (06/05/17 03:45 pm CDT). Below this, the interface is divided into several sections. On the left, a 'Created By' section shows 'John Johnson 06/02/17 11:48 am CDT' and a 'Repairs Certified By' section shows 'N/A'. Below these is an 'Approved By' section showing 'John Doe 06/05/17 12:19 pm CDT' and 'Safe to Operate'. To the right, an 'Asset Type' section shows 'Vehicle', 'Location' as 'Coralville, IA', and 'Odometer' as '1100 mi (1770.3 km)'. Below the asset type is a 'Notes' section with 'No notes documented'. In the center, a large circular gauge displays '07:49 Available Drive Time'. To the right of the gauge is a 'Rest Break' button. At the bottom left, a 'Status' section shows 'ON' and '00:00 JSMITH'. At the bottom right, there is a 'John Doe' label and an 'Add DVIR' button. The bottom navigation bar contains icons for 'Status', 'Options', 'Driver', 'Shipment', 'Trailers', 'Logs', and 'DVIR'. Numbered callouts are present: '2' points to the top status bar, '1' points to the bottom navigation bar, and '3' points to the 'Add DVIR' button.
