

TrackIt[®]

Android

Version: 14.4.41

Release Notes

04/01/2020

**Command
Alkon**

These release notes contain information regarding new functionalities, behaviors, changes, and other new experiences you should expect when using this latest version of the TrackIt Android product.

Legend

Enhancement: A new feature created to expand the capabilities of the TrackIt Android app and increase its overall benefit for end users.

Correction: A change intended to remove unexpected behaviors in the TrackIt Android app and improve the overall end user experience.

Process Steps: Step-by-step instructions intended to complete a task associated with the enhancement or correction.

Information: General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt Android.

***EDCs not configuring
consistently***

(DDT-2192)

Corrected behavior:

EDCs now configure correctly on tablets using iOS v9.

Previous behavior:

EDCs would not configure consistently with tablets using iOS v9.

***Truck Ahead/Behind cards not
updating***

(NFS-1530)

Corrected behavior:

The Truck Ahead and Truck Behind status cards now update in real time as expected.

Previous behavior:

The Truck Ahead and Truck Behind status cards were not updating in real time, sometimes lagging upward of 15 to 20 minutes behind.
