**Information:** General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

## v14.4.47 (06/30/2020)

### Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt Android.

---

***TrackIt Android ignores probe status change***

***(DDT-2556)***

#### **Corrected behavior:**

TrackIt Android will process all status changes sent from the COMMANDassurance even if the app is running in the background.

#### **Previous behavior:**

In some cases, TrackIt Android would ignore the status changes triggered by the Probe. This happened in cases where TrackIt was in the background when the status change triggered.
