**Process Steps:** Step-by-step instructions intended to complete a task associated with the enhancement or correction.

**Information:** General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

## v14.4.55 (10/27/2020)

### Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

---

#### ***COMMANDassurance device versions displayed*** **(CA-212)**

The COMMANDassurance APK will now send its version information to the TrackIt Web Console. The APK version will be displayed in the [Tracking Device](#) screen in *Settings > Tracking Device > Tracking Device*. Additionally, the probe firmware versions can be viewed in the [Edit Equipment](#) dialog screen found in *Settings > Equipment > Equipment*. Customers must have COMMANDassurance version 5.5.12+ to view versions in the TrackIt Web Console.

---

#### ***Wi-Fi setting added*** **(FEL-1185)**

A new **Change Wifi State** setting was added to the [Settings](#) menu in TrackIt Android. The setting allows users to turn on the device's Wi-Fi without requiring them to exit out of the MDM lock screen.

---

#### ***Dutch translations for the Load Properties card*** **(FEL-1582)**

The Dutch translation for the [Load Properties](#) card has been updated based on feedback from a customer in the Netherlands.
