v14.4.71 (6/15/2021)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.
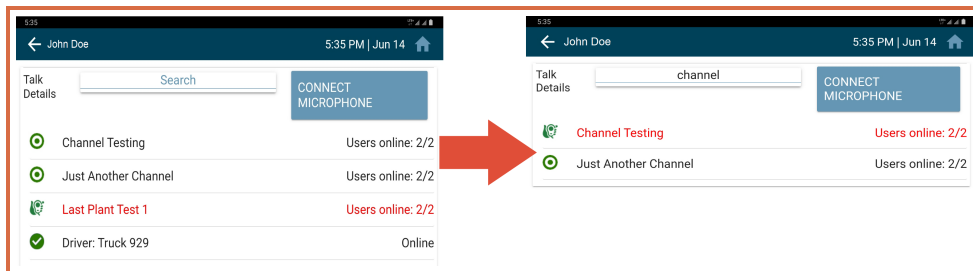

➕ *Privacy Policy Updated* (FEL-2645)

The TrackIt Android Privacy Policy has been updated in accordance to Google requirements.

### ➕ *New Driver to Driver Communication* (TP1-157)

A new TrackIt Device Setting is available in the TrackIt Web Console called **Allow Driver-to-Driver Communication**. When enabled, this option allows drivers to search for other drivers to begin a direct communication with. A **Search** field is now available to search and filter available trucks and channels.

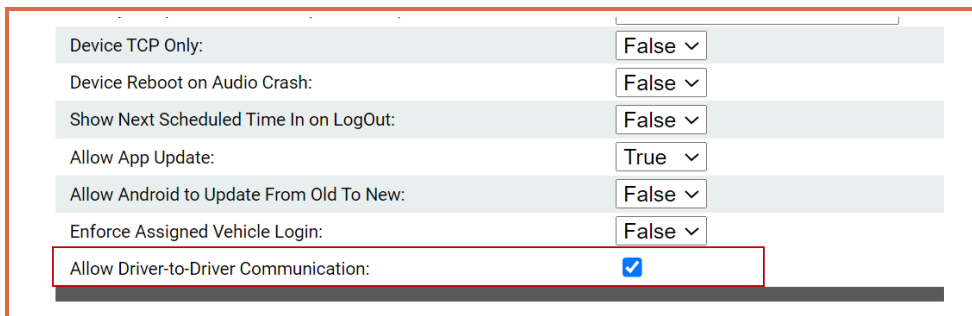

> ℹ️ This will only work with Group/Static channels.

To enable Driver-to-Driver Communication in the TrackIt Web Console

1. In the TrackIt Web Console navigate to *Settings > Site Settings*.

2. Access the TrackIt Device Settings tab.

3. Select the new **Allow Driver-to-Driver Communication** checkbox.

4. Select the **Save Settings** button.

Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt Android.
