v14.4.76 (09/01/2021)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt Android.

✅   *EDC maintaining connectivity issues on OS10+*   *(FEL-4760)*

Corrected behavior:

The logic to properly disconnect and reconnect the Engine Data Controller (EDC) connection has been modified to ensure the connection is correctly restored.

Previous behavior:

The Engine Data Controller (EDC) had trouble restoring connectivity when the EDC connection was lost.
