Legend

Enhancement: A new feature created to expand the capabilities of the TrackIt Android app and increase its overall benefit for end users.

Correction: A change intended to remove unexpected behaviors in the TrackIt Android app and improve the overall end user experience.

Process Steps: Step-by-step instructions intended to complete a task associated with the enhancement or correction.

Information: General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

v14.4.77 (09/21/2021)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

Android 12 Compatibility: Specify course and fine location   *(FEL-4910)*

To accommodate for Android 12 permission changes, the TrackIt location disclosure message has been modified to specify the use of both fine and coarse location.

Note: Upgrading from an older version to this version will <u>not</u> cause the disclosure message to be acknowledged again by the driver.
