Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

Google Play Store: Specify user data prior to user interaction *(FEL-4825)*

As part of Google Play Store compliance, TrackIt has been corrected to prompt and notify the user of TrackIt's use of phone number and/or IMEI number prior to registering a new device.

We have to send phone number/IMEI to try to register your device. If you cancel that you will have to manually type the number.
