Information: General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

v14.4.84 (01/06/2022)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

Update VisTracks intent calls (FEL-5070)

TrackIt integration intents with VisTracks have been updated to support newly named api intents that VisTracks has introduced in more current builds and releases for ELD customers.

SDK 31 Implementation and Changes (FEL-4913)

Both TrackIt Android and ESM applications have been updated to support SDK 31 to account for the new Android OS 12 release.
