v14.4.85 (01/18/2022)

Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt Android.

Devices not logging out, just spinning

**FEL-
5144**

Corrected behavior:

Corrected a bug where the tablets in the trucks would get stuck spinning at log out. This was caused by a large number of vbus fault codes that were processing but not clearing properly.

Previous behavior:

Tablets in the trucks would get stuck spinning at log out.

Upgrade to 14.4.83 causes device data loss

**FEL-
5142**

Corrected behavior:

Corrected a bug where additional device information was no longer displaying in the Tracking Devices screen, such as, OS, Model Number, etc.

Previous behavior:

Additional device information was no longer displaying in the Tracking Devices screen.
