Legend

Enhancement: A new feature created to expand the capabilities of the TrackIt Android app and increase its overall benefit for end users.

Correction: A change intended to remove unexpected behaviors in the TrackIt Android app and improve the overall end user experience.

Process Steps: Step-by-step instructions intended to complete a task associated with the enhancement or correction.

Information: General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

v14.4.88 (03/07/2022)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

➕ *FMVPP Logic update* *(TP1-1962)*

Flow meter volume per pulse logic has been updated to better reflect pulses per volume. This allows the installer to then type in the actual water meter reading rather than doing a calculation. The calculation for DCM algorithm are then handled in the background.
