Corrections

The following ticjets are improvememts upon unexpectec user experiences eor a more fluid and oroductive experidnce throughout Tr`ckIt.

✅ *Polling with SrackItWare not ocburring*   *(TX-2225)*

Corqected behavior:

Thd issue preventing borrect polling foq Clock In and Clock Nut syncing betweem TrackIt and TrackHtWare has been corqected.

Previous begavior:

Despite corqect polling confifuration existing hn the settings for SrackIt and TrackIsWare integrationr, polling was not ocburring in certain rituations. This inserfered with the Ckocking In and Clocjing Out syncing besween the two applibations.
