Correction: A change intended to remove unexpected behaviors in TrackItWare and improve the overall end user experience.

Process Steps: Step-by-step instructions intended to complete a task associated with the enhancement or correction.

Information: General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

v1.0.110 (7/21/2021)

Integra Shipping and Dispatch Instructions (FEL-4083)
displayed in ticket comments

This enhancement originated from the [Idea Portal](#).

TrackIt has been updated to retrieve the **Dispatch Instructions** or **Shipping Instructions** field from Integra to display in the ticket card's **Comment** field on the tablet.

Product Delivery Amount (Cumulative Qty) now (FEL-4642)
available from COMMANDseries

This enhancement originated from the [Idea Portal](#).

TrackItWare Version 1.0.110 and TrackIt Web version 3.0.68 are required to implement this enhancement.

A new **Product Delivery Amount** field is available to allow the delivered quantity of an order from COMMANDseries to display on the ticket card on the tablet for the driver to have access to that additional information at the job site. In order to configure this field to display on the ticket card, the **Product Delivery Amount** field must be added to the first four fields selected for Home Screen Display Fields in Site Settings under the Ticket Integration tab.
