

TrackIt[®]

Web Console

Version: 3.0.63

Release Notes

05/04/2021

**Command
Alkon**

These release notes contain information regarding new functionalities, behaviors, changes, and other new experiences you should expect when using this latest version of the product.

Legend

Enhancement: A new feature created to expand the capabilities of the TrackIt Web Console and increase its overall benefit for end users.

Correction: A change intended to remove unexpected behaviors in the TrackIt Web Console and improve the overall end user experience.

Process Steps: Step-by-step instructions intended to complete a task associated with the enhancement or correction.

Information: General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

v3.0.63 (05/04/2021)

Product Summary field expanded

(FEL-4031)

The [Product](#) Summary field for tickets was expanded to allow the [Ticket #](#) Card in TrackIt Android to display more information when a driver taps the card to open Ticket Details. Because this change includes updates to the TrackIt Web Console that affect TrackIt Android, the changes will only appear on TrackIt Android if the TrackIt Web Console application is updated to this latest version.
