

# TrackIt<sup>®</sup>

## Web Console

Version: 3.0.80

Release Notes

01/18/2022

**Command  
Alkon**

These release notes contain information regarding new functionalities, behaviors, changes, and other new experiences you should expect when using this latest version of the product.

## Legend

**Enhancement:** A new feature created to expand the capabilities of the TrackIt Web Console and increase its overall benefit for end users.

**Correction:** A change intended to remove unexpected behaviors in the TrackIt Web Console and improve the overall end user experience.

**Process Steps:** Step-by-step instructions intended to complete a task associated with the enhancement or correction.

**Information:** General information needed to understand the context, behaviors, and restrictions associated with new enhancements and corrections.

## v3.0.80 (01/18/2022)

### Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

---

#### ***Batch Summary: Change slump logic to use first status change*** (CA-780)

For COMMANDassurance customers, the Batch Summary report logic would always select the last occurrence of a status change.

For Example: if Begin Pour triggered twice, the last occurrence would be used. This was causing issues with reporting.

The logic has now been reversed to use the first status change if the same status occurs multiple times.

---

#### ***Batch Summary: Enforce slump readings before and after water*** (CA-778)

For COMMANDassurance customers, the Batch Summary report previously would accept a slump reading as the Arrival Slump even if water was added on site before the slump reading was obtained. In addition, the Begin Pour slump was accepted even if water was added to the load after the slump reading was obtained and before pouring started.

The Batch Summary report has been updated to only accept an Arrival slump if the slump reading is obtained after arriving at the job site and before any water is added to the load. The Begin Pour slump will only be accepted if no water is added after the slump is obtained and before begin pour is triggered.

## Make Last Login for devices visible to customers (FEL-1459) on the Tracking Devices Page

Setting>>Tracking Devices>> Tracking Devices

Last Login information of the tracking devices is now available and will display on the tracking devices page as well as in the download for customer's use and evaluation of their fleet of devices.

Main > Settings > Tracking Device > Tracking Device

## Include Time off on Log out time summary to driver (FEL-4874)

A new capability has been released to display different Time Off Categories and their available time to the driver on their logout summary page.

To Set Up:

Main>>Payroll>>Setup>>Time Off Category

Upon adding or editing a category, there is now a new field called "Display to Driver"

Main > Payroll > Setup > Time Off Category

### Time Off Category

Description	Hour Restriction	Default Hours	Display To Driver
PTO	Yes	0	Yes
UTO	No	0	Yes

**Edit Time Off Category**

Description: PTO

Hours Restriction : Enabled

Default restricted hours: 0

**Display To Driver : Enabled**

Save Cancel

Note:

If it is an hour restricted enabled category, this will show remaining hours on the tablet and in the Time off Management screen

if it is a not hour restricted ( show the hours used for the year on the tablet and in the Time off Management screen

Main > Payroll > Setup > Employee PTO Setup

### Employee PTO Setup

Plants: ALL SELECTED Employee Types: ALL SELECTED Employee Groups: NONE SELECTED Year: 2022

Name	Num	Hire Date	PTO Used in 2021	PTO All
Jaden Bruening	17	2020-09-01	0	0
Jess Reed	33	2021-01-06	0	20.59
Steven Tyler	34	2021-03-01	0	0
John Wayne	35	2021-08-25	0	0

If the "Display to Driver" field is set to 'enabled' this will then display the hours on the driver's tablet at end of day log out summary page.

## Logged Out

Emp: Jess Reed  
Shift Hrs: 0.01  
PTO(Left): 20.59  
UTO(Used): 0.0  
Today Hrs: 0.01  
Wk Hrs: 16.67

OK

## Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt.

***Text differences on buttons looks  
correlated to the alternating row colors***

***(TP1-1558)***

### **Corrected behavior:**

Corrected a visual difference could be seen on the font of the "Logout" button between alternating rows on the webpage. Main>> Dispatch>> Login Registry

### **Previous behavior:**

On the Login Registry page there was a visual difference on the font in different areas of the page.
