v3.0.81 (02/02/2022)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

ISE HOS and DVIR website link needs to be updated to https ***(FEL-1770)***

Redirected the ISE eFleet link from the below path to use https rather than http

Navigate from Main > Reports and click ISE HOS and DVIR.

Add Device ID to system health views ***(FEL-4869)***

System health will now also include a reference to the Device ID (same device number used at registration that can be found on the Tracking Devices Page) for additional information to help narrow down the issue.

For more information on how to get access to System Health or an overview, please contact TrackIt Support at trackitsupport@commandalkon.com
