v3.0.83 (03/07/2022)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

New Map Search Field

(TP2-97)

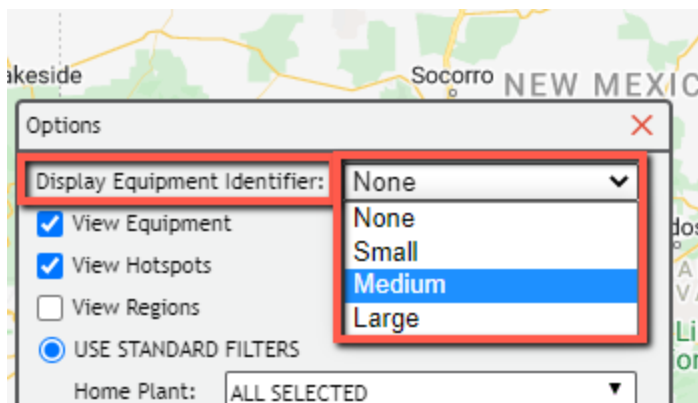

A new search option has been added to the Equipment Map that will zoom into the vehicle selected

Map UI change: Make Equipment Identifier Sizing Configurable

(TP1-2048)

Users are now able to configure the size of the Equipment Identifier on the map from the map settings.

Clean Up/ Improve Message History Report

(TP1-385)

Main > Reports > Message History

For better user experience and organization of the Message History Report, system messages will be hidden by default. If the user wishes to view these system messages, a checkbox has been provided for auditing and troubleshooting purposes.

Main > Reports > Message History

Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt Android.

Time Card option list displays off screen

(TP1-2032)

Corrected behavior:

Corrected an issue with the options list appearing off screen.

When accessing Payroll>Timecards>Weekly Time Cards, then select any time card of an employee, click on the Status/Q&A Details tab and then hover over or click on the answer of a status question that has multiple possible answers,
