v3.0.85 (04/07/2022)

Enhancements

The following items are newly-implemented features intended to increase end-user productivity throughout TrackIt.

Send Left Over Quantity to Connex

(DEL-27)

TrackIt now sends Leftover concrete/ Remaining Concrete Material information back to Connex for those customers using Connex Ready Mix Dispatch

Audible alert on tablet when truck is ticketed

(DEL-14)

Requires Android tablet version 14.4.90 as a minimum

To enable this new feature, please head to Site Settings and under the TrackIt Device Settings page, you will see a new line for “Sound when a ticket is activated”. There is a capability for you to select and preview which audible alert you would like for your drivers. Once set, changes will require a log out and back into the tablet.

Corrections

The following tickets are improvements upon unexpected user experiences for a more fluid and productive experience throughout TrackIt Android.

Current Truck Status widget - bottom statuses will cause screen to freeze

(TP1-2223)

Corrected behavior:

Corrected the Current Truck status to properly redirect to the equipment map. The map would then load and display only those trucks with the status that was selected.

Previous behavior:

Selection of some of the statuses would cause the screen to freeze.

Dispatch summary- OutBox Message count corrected

(TP1-2213)

Corrected behavior:

Corrected an issue where the hidden system messages were getting included in the Outbox Message Count.

Previous behavior:

The outbox message count was including the hidden system messages.
